

DESCRIPTION

- The RJ45 / RJ45 pass-through adapter is used in cases where it is necessary to extend the cable line. Cables are terminated with RJ45 modular plugs and are connected to the pass-through adapter from both sides.

PHYSICAL CHARACTERISTICS

- Category: 5e
- Bandwidth: 100 MHz
- Input connector type: RJ45 / 8P8C
- Output connector type: RJ45 / 8P8C
- Execution: unshielded

ELECTRICAL SPECIFICATIONS

- Contact resistance: not more than 20 mΩ
- Insulation resistance: not less than 500 mΩ

MATERIALS & CONSTRUCTION

- Case: shock-resistant ABS plastic
- Spring contacts: phosphor bronze with gold deposition
