

Twin Industries high temperature solderless breadboards are ideal for electronic projects, rapid prototyping, and educational programs with higher temperature requirements. POM material with 150°C heat distortion temperature. Part numbers; TW-E40-510-P and TW-E40-1020-P

**FEATURES:**

- Polyoxymethylene (POM) Material
- Holes spaced 0.1" x 0.1"
- Labeled rows and columns
- Compatible with all Twin Industries machine pin jumper wires

PART NUMBER

**TW-E40-1020-P**

830 tie points - Dim. 2.1" x 6.5"

PART NUMBER

**TW-E40-510-P**

460 tie points - Dim. 2.1" x 3.3"
