INTRODUCTION

Antaira's LMP-1202M-SFP series is a 12-port industrial PoE+ managed Ethernet switch that is embedded with 8*10/100Tx Ethernet ports that support IEEE802.3at/af for a maximum of 30W/port, 2*10/100/1000Tx RJ45 and 2*100/1000 dual rate SFP slots for gigabit fiber connections. The LMP-1202M-SFP series is a fully manageable Layer 2 Ethernet switch that is pre-loaded with a user-friendly web management console design. It supports the ring network redundancy function using the market's open standard ITU-T G.8032 ERPS (Ethernet Ring Protection Switch) protocol that has a <50ms network recovery time. The advanced network filtering and security functions; such as, IGMP, VLAN, QoS, SNMP, RMON, ModbusTCP, and 802.1X/HTTPS/SSH/SSL, increase determinism and improve network management for remote SCADA systems or control networks.

The LMP-1202M-SFP series is IP30 rated and DIN-rail mountable. There are also two wide operating temperature models of either a standard temperature range (STD: -10°C to 70°C) or an extended temperature range (EOT: -40°C to 75°C). It also provides high EFT and ESD protection for industrial networking applications, such as, power/utility, water wastewater, oil/gas/mining, factory automation, security surveillance within transportation, ITS, and any other outdoor or harsh environment.
