JUMPER LEAD SET (PVC INSULATION)

Color identification is safe way to work on electrical circuits

Four-piece Color Coded Jump Lead Set

- Alligator clips on both ends securely grip terminal connections
- Coiled cord stretches to 48" (122cm) for extra reach
- Coil cords recoil requiring minimum storage space and less tangling
- Heavy duty but flexible rubber boots provide safety insulation and wire connection strain relief
- Soldered and clamped wire connections to alligator clips provides low signal loss and prolongs life
- Four distinct colors facilitate easy identification of test circuits
