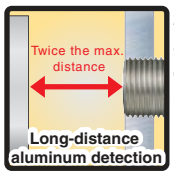
Aluminum and Iron Both Detectable from Long Distances



2 times the aluminum detection distance of previous models

Equipped with a function to prevent the detection of aluminum chips

For the most recent information on models that have been certified for safety standards, refer to your OMRON website.

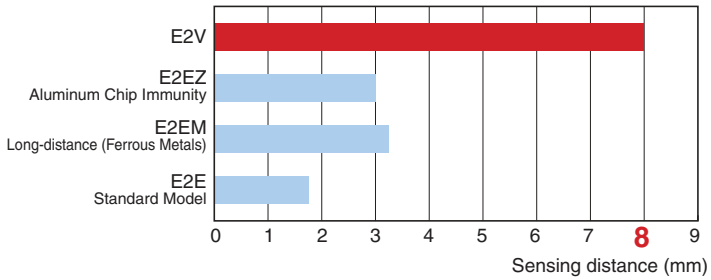
Refer to *Safety Precautions* on page 8.

Features

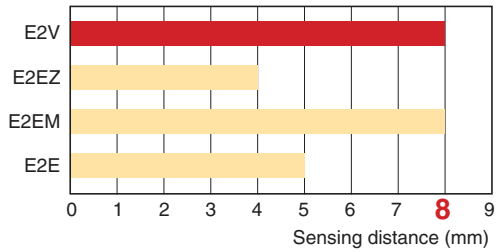
Aluminum Detection Distance: 2 Times Previous Models *

Immunity against aluminum chips has enabled achieving long-distance detection of aluminum workpieces. The same detection distance has also been achieved for iron, allowing the E2V-X□ to be separated from workpieces made of either metal farther than any other Proximity Sensor.

Aluminum Excellent Performance, with Aluminum Chip Immunity!



Iron Also Detects Iron at Long Distances!



* In-house comparison of M18 Shielded Long-distance Models

Detection Made Visible

An operation indicator that is visible from any direction is provided as a standard feature.
This indicator flashes under unstable conditions for easy installation condition verification at a glance.

Refer to *Introduction to Sensor I/O Connectors/Sensor Controllers* for details.

Safety Precautions

Refer to the *Proximity Sensors Technical Guide*.

⚠ WARNING

This product is not designed or rated for ensuring safety of persons. Do not use it for such purposes.

Never use the product with an AC power supply. Otherwise, explosion may result.

Precautions for Correct Use

Do not use the product in atmospheres or environments that exceed product ratings.

Designing

Influence of Surrounding Metal

When embedding the Sensor in metal, be sure that the clearances given in the following table are maintained.

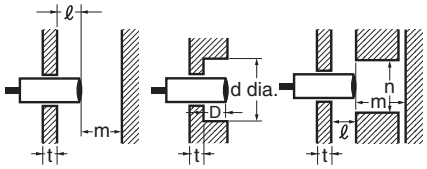

Table 1. Influence of Surrounding Metal (Unit: mm)

Item / Model	E2V-X2	E2V-X5	E2V-X10
ℓ	0	0	0
d dia.	12	18	30
D	0	0	0
m	12	24	45
n	18	27	45

Item / Model	E2V-X4	E2V-X8	E2V-X15
ℓ	0	0	0 *
d dia.	12	18	30 *
D	0	0	0 *
m	12	24	45
n	18	27	45

* If the thickness of the mounting bracket (t) exceeds 5 mm, be sure to install the Sensor so that ℓ ≥ 2, d (dia.) ≥ 45, and D ≥ 2.

Mutual Interference

When installing Sensors face-to-face or side-by-side, be sure that the minimum distances given in table 2 are maintained.

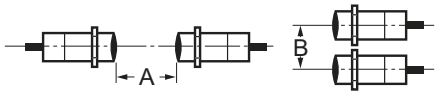

Chart 2. Mutual Interference (Unit: mm)

Item / Model	E2V-X2	E2V-X5	E2V-X10
A	30	50	100
B	20	30	50

Item / Model	E2V-X4	E2V-X8	E2V-X15
A	35	60	120
B	25	35	70

Sensing Distance

- The sensing distance depends on the sensing object size, material, and thickness.
- If the sensing object has a thickness of less than 1 mm, the sensing distance will decrease.
- In some cases, it may not be possible to detect stainless steel. Use the following graph and the *Influence of Sensing Object Size and Material* information in *Engineering Data (Reference Value)* as a reference.

Aluminum and Iron Cuttings

Normally aluminum or iron cuttings will not be detected even if they adhere to or accumulate on the sensing surface. Detection signals may be output for the following. If this occurs, remove the cuttings from the sensing surface.

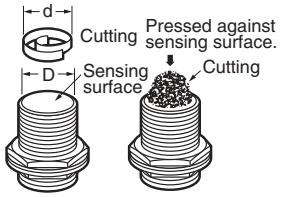
Diameter of cutting = d and diameter of sensing surface = D

Cuttings in center of sensing surface

with d ≥ 2/3D

(Unit: mm)

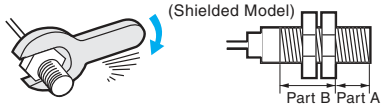
Mode / Size	D
E2V-X2□/X4□	10
E2V-X5□/X8□	16
E2V-X10□/X15□	28



Tightening Torque

Do not tighten the nut with excessive force.

A washer must be used with the nut.



Tightening Torque / Model	Part A		Part B
	Dimension (mm)	Torque	Torque
E2V-X2/X4	17	5.9 N·m	9.8 N·m
E2V-X5/X8	22	15 N·m	45 N·m
E2V-X10/X15	26	39 N·m	78 N·m

Dimensions

Terms and Conditions Agreement

Read and understand this catalog.
Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.
(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE
PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.
Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.
See http://www.omron.com/global/ or contact your Omron representative for published information.

Limitation on Liability; Etc.
OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.
Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.
Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.
NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.
Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.
Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.
Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions.
Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

2023.4

In the interest of product improvement, specifications are subject to change without notice.
