# ESP32 Breakout Kit

SKU 110060576

This is the breakout kit specially made for ESP32, it contains a breakout board and some pin headers

Description

This is the breakout kit specially made for ESP32, it contains a breakout board and some pin headers. The breakout board with 2.54mm-gap female headers allows you to connect the pin of ESP32 to it so that you can connect ESP32 to breadboard easier. We also provided 2 grove connectors in this kit to enrich the expansibility of ESP32.
