Construction Seaming Tape

8087

	3M [™] Construction Seaming Tape 8087 is designed to seal seams on housewrap and insulated sheathing products. It can also be used to seam polyethylene vapor barries products as well as to repair holes and tears in these building materials. Taping seams aids in reducing air infiltration, improving the effectiveness of insulation and reducing heating and cooling costs.

- Meets the criteria to contribute to the Environmental Quality ("EQ") Credit 4.1: Low-Emitting Materials: Adhesives & Sealants under the United States Green Building Council's Rating System for New Construction & Major Renovations (LEED-NC), Version 2.2, Core and Shell (LEED CS), Version 2.0, and Commercial Interiors (LEED_CI), Version 2.0.
- If applied at cold temperatures, adhesion will increase as temperature warms or with the sun's rays.
- Low moisture vapor transmission rate does not compromise performance of vapor barriers.
