

Eaton 5P 1440VA 1100W 120V Line-Interactive UPS, 5-15P, 10x 5-15R Outlets, 16-Inch Depth, True Sine Wave, Cybersecure Network Card Option, 2U

MODEL NUMBER: 5P1500RC

Provides enterprise-class battery backup and pure sine wave output for servers, switches, data storage and other critical networking equipment.

Features

1.44kVA/1.1kW/120V Battery Backup for Network Closets and Small Data Centers

This 5P rack-mount line-interactive UPS system provides reliable battery backup for small business, education, retail, financial or healthcare networking components, including servers, VoIP phones, data storage and PoE switches. The 5P1500RC protects connected devices by providing 20 percent more wattage compared to traditional UPS systems.

Reliable Battery Backup Keeps You Operational Through Power Outages

Valve regulated lead acid (VRLA) battery modules allow you to work through short power failures and give you enough time to safely save files and shut down your system in case of a prolonged blackout. Exclusive ABM technology increases battery life by 50 percent and closely monitors battery health to provide advanced notice when batteries need replacing.

Optional Gigabit Network Interface Offers 24/7 Remote Access

The NETWORK-M2 Gigabit network card (sold separately) enables full remote configuration and management, including load shedding, reboots of connected equipment and safe shutdowns. UPS firmware can also be flashed remotely through the NETWORK-M2 without dropping the load, so you don't have to plan for downtime. The card meets both UL 2900-1 and IEC 62443-4-2 standards for cybersecurity, which were developed to address the vulnerability of connected devices to known malware/exploits and to protect business from these risks. An optional Environmental Monitoring Probe Gen 2 (EMPDT1H1C2, sold separately) provides a variety of environmental monitoring capabilities, including temperature and humidity conditions.

NEMA 5-15R Outlets Protect Your Connected Components

Ten managed 5-15R outlets provide connected equipment with pure sine wave AC output and allow you to monitor power consumption down to the outlet group level. Six outlets are grouped into two load banks that let you shed non-critical loads to extend runtime for critical loads.

LCD Interface Keeps You Informed at a Glance

The five-button graphical LCD provides useful information about the UPS itself, load status,

Highlights

- Keeps equipment running during outages to allow time for file saves and safe shutdown
- Provides 20% more wattage compared to traditional UPS systems to protect devices
- Exclusive ABM technology with 3-stage charging increases internal battery life by 50%
- 5-button graphical LCD offers critical UPS data and load status at a glance
- Optional NETWORK-M2 Gigabit network card enables full remote access and control

Package Includes

- 1440VA 1100W 120V 5P Line-Interactive UPS with 10 Outlets
- USB cable
- RS-232 cable
- Mounting hardware
- Quick Start Guide

events, measurements and settings. To save energy, the LCD switches to the screen saver after five minutes of inactivity. The backlight LCD automatically dims after 10 minutes of inactivity.

Advanced Communications Ports Allow for Automatic Saves and Shutdowns

RS-232 and USB ports connect to a serial-enabled or USB-enabled device for a variety of communication options (cables are included). By adding the optional RELAY-MS interface card (sold separately), a dry-contact relay port can be programmed through the LCD to provide reliable communications to automation and industrial components. The RPO/ROO connector permits emergency shutdown or remote restart of all connected equipment.

Flexible Installation Options

You can mount the 5P1500RC in 2U of space in an EIA-standard 19-inch 2-post or 4-post rack using the included hardware. The compact UPS system's short 16-inch depth allows extra space in the rear for cabling and enhanced airflow through the rack. You can also use the included hardware for wall mounting. The six-foot power cord with NEMA 5-15P plug connects to a compatible AC outlet.

Specifications

OVERVIEW		
UPC Code	743172088284	
UPS Type	Line-Interactive	
INPUT		
Input Phase	Single-Phase	
Nominal Input Voltage(s) Supported	100V AC; 110V AC; 120V AC	
UPS Input Connection Type	5-15P	
UPS Input Cord Length (ft.)	6	
UPS Input Cord Length (m)	1.8	
Plug Type	5-15P	
ОИТРИТ		
Output Capacity (VA)	1440	
Output Capacity (kVA)	1.44	
Output Capacity (Watts)	1100	
Output Capacity (kW)	1.1	
Power Factor	0.76	
Nominal Voltage Details	100V, 120V, 125V	
Frequency Compatibility	50 / 60 Hz	
Load Management Receptacles	Two switchable outlet load banks	
Output AC Waveform (AC Mode)	True Sine Wave	
Output AC Waveform (Battery Mode)	Pure Sine wave
