

Features

- Bushing mount
- Excellent resolution
- Non-standard features and specifications available
- Small diameter
- High rotational life
- RoHS compliant*

3700/3701 - Precision Potentiometer

Additional Information

Schematic

Recommended Part Numbers

Part Number	Resistance (Ω)	Resolution (% Max.)
3700S-1-202L	2,000	0.04
3700S-1-502L	5,000	0.04
3700S-1-103L	10,000	0.03

Part Number	Resistance (Ω)
3701H-1-202L	2,000
3701H-1-502L	5,000
3701H-1-103L	10,000

BOLDFACE LISTINGS ARE IN STOCK AND READILY AVAILABLE THROUGH DISTRIBUTION. FOR OTHER OPTIONS CONSULT FACTORY. ROHS IDENTIFIER: L = COMPLIANT*

Electrical Characteristics ¹	3700 Wirewound Element	3701 Hybritron® Element
Standard Resistance Range.....	100 to 100 K ohms.....	2 K to 100 K ohms
Total Resistance Tolerance.....	±5 %.....	±10 %
Independent Linearity.....	±0.25 %.....	±0.25 %
Effective Electrical Angle.....	3600 ° +10 °, -0 °.....	3600 ° +10 °, -2 °
Absolute Minimum Resistance/.....	1 ohm or 0.1 % maximum.....	Minimum voltage
Minimum Voltage.....	(whichever is greater)	0.2 % maximum
Noise.....	100 ohms ENR maximum.....	Output smoothness 0.1 % maximum
Dielectric Withstanding Voltage (MIL-STD-202, Method 301)		
Sea Level.....	1,000 VAC minimum.....	1,000 VAC minimum
Power Rating (Voltage Limited By Power Dissipation or 315 VAC, Whichever Is Less)		
+70 °C.....	1 watt.....	1 watt
+125 °C.....	0 watt.....	0 watt
Insulation Resistance (500 VDC).....	1,000 megohms minimum.....	1,000 megohms minimum
Resolution.....	See recommended part nos.	Essentially infinite

Environmental Characteristics ¹	3700 Wirewound Element	3701 Hybritron® Element
Operating Temperature Range.....	+1 °C to +125 °C.....	+1 °C to +105 °C
Storage Temperature Range.....	-65 °C to +125 °C.....	-55 °C to +105 °C
Temperature Coefficient Over		
Storage Temperature Range ²	±50 ppm/°C maximum/unit.....	±100 ppm/°C maximum/unit
Vibration.....	20 G.....	20 G
Wiper Bounce.....	0.1 millisecond maximum.....	0.1 millisecond maximum
Shock.....	100 G.....	100 G
Wiper Bounce.....	0.1 millisecond maximum.....	0.1 millisecond maximum
Load Life.....	1,000 hours, 1 watt.....	1,000 hours, 1 watt
Total Resistance Shift.....	±2 % maximum.....	±5 % maximum
Rotational Life (No Load).....	1,000,000 shaft revolutions ²	4,000,000 shaft revolutions ²
Total Resistance Shift.....	±5 % maximum.....	±5 % maximum
Moisture Resistance (MIL-STD-202, Method 103, Condition B)		
Total Resistance Shift.....	±2 % maximum.....	±5 % maximum
IP Rating.....	IP 40.....	IP 40

Mechanical Characteristics ¹	3700 Wirewound Element	3701 Hybritron® Element
Stop Strength.....	14 N-cm (20 oz-in.) minimum	14 N-cm (20 oz-in.) minimum
Mechanical Angle.....	3600 ° +20 °, -0 °	3600 ° +20 °, -0 °
Torque (Starting & Running).....	0.45 N-cm (0.6 oz.-in.) max.	0.45 N-cm (0.6 oz.-in.) max.
Mounting.....	170-200 N-cm (15-18 lb.-in.) max.	170-200 N-cm (15-18 lb.-in.) max.
Shaft Runout.....	0.05 mm (0.002 in.) T.I.R.	0.05 mm (0.002 in.) T.I.R.
Lateral Runout.....	0.13 mm (0.005 in.) T.I.R.	0.13 mm (0.005 in.) T.I.R.
Shaft End Play.....	0.13 mm (0.005 in.) T.I.R.	0.13 mm (0.005 in.) T.I.R.
Shaft Radial Play.....	0.08 mm (0.003 in.) T.I.R.	0.08 mm (0.003 in.) T.I.R.
Pilot Diameter Runout.....	0.05 mm (0.002 in.) T.I.R.	0.05 mm (0.002 in.) T.I.R.
Backlash.....	1.0 ° maximum	1.0 ° maximum
Weight.....	Approximately 28 gm	Approximately 28 gm
Terminals..... Gold-plated solderlugs (3700) or gold-plated turret lugs (3701)		
Soldering Condition		
Manual Soldering.....	96.5Sn/3.0Ag/0.5Cu solid wire or no-clean rosin cored wire	96.5Sn/3.0Ag/0.5Cu solid wire or no-clean rosin cored wire
.....	370 °C (700 °F) max. for 3 seconds	370 °C (700 °F) max. for 3 seconds
Wave Soldering.....	96.5Sn/3.0Ag/0.5Cu solder with no-clean flux	96.5Sn/3.0Ag/0.5Cu solder with no-clean flux
.....	260 °C (500 °F) max. for 5 seconds	260 °C (500 °F) max. for 5 seconds
Wash processes.....	Not recommended	Not recommended
Marking.....	Manufacturer's name and part number, resistance value and tolerance, linearity tolerance, wiring diagram, and date code	Manufacturer's name and part number, resistance value and tolerance, linearity tolerance, wiring diagram, and date code
Ganging (Multiple Section Pots.).....	1 cup maximum	1 cup maximum
Hardware.....	One lockwasher (H-37-1) and one mounting unit (H-38-1) is shipped with each potentiometer.	One lockwasher (H-37-1) and one mounting unit (H-38-1) is shipped with each potentiometer.

¹ At room ambient: +25 °C nominal and 50 % relative humidity nominal, except as noted.

Specifications are subject to change without notice.

Users should verify actual device performance in their specific applications.

The products described herein and this document are subject to specific legal disclaimers as set forth on the last page of this document, and at www.bourns.com/docs/legal/disclaimer.pdf.

This legal disclaimer applies to purchasers and users of Bourns® products manufactured by or on behalf of Bourns, Inc. and its affiliates (collectively, "Bourns").

Unless otherwise expressly indicated in writing, Bourns® products and data sheets relating thereto are subject to change without notice. Users should check for and obtain the latest relevant information and verify that such information is current and complete before placing orders for Bourns® products.

The characteristics and parameters of a Bourns® product set forth in its data sheet are based on laboratory conditions, and statements regarding the suitability of products for certain types of applications are based on Bourns' knowledge of typical requirements in generic applications. The characteristics and parameters of a Bourns® product in a user application may vary from the data sheet characteristics and parameters due to (i) the combination of the Bourns® product with other components in the user's application, or (ii) the environment of the user application itself. The characteristics and parameters of a Bourns® product also can and do vary in different applications and actual performance may vary over time. Users should always verify the actual performance of the Bourns® product in their specific devices and applications, and make their own independent judgments regarding the amount of additional test margin to design into their device or application to compensate for differences between laboratory and real world conditions.

Unless Bourns has explicitly designated an individual Bourns® product as meeting the requirements of a particular industry standard (e.g., ISO/TS 16949) or a particular qualification (e.g., UL listed or recognized), Bourns is not responsible for any failure of an individual Bourns® product to meet the requirements of such industry standard or particular qualification. Users of Bourns® products are responsible for ensuring compliance with safety-related requirements and standards applicable to their devices or applications.

Bourns® products are not recommended, authorized or intended for use in nuclear, lifesaving, life-critical or life-sustaining applications, nor in any other applications where failure or malfunction may result in personal injury, death, or severe property or environmental damage. Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any Bourns® products in such unauthorized applications might not be safe and thus is at the user's sole risk. Life-critical applications include devices identified by the U.S. Food and Drug Administration as Class III devices and generally equivalent classifications outside of the United States.

Bourns expressly identifies those Bourns® standard products that are suitable for use in automotive applications on such products' data sheets in the section entitled "Applications." Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any other Bourns® standard products in an automotive application might not be safe and thus is not recommended, authorized or intended and is at the user's sole risk. If Bourns expressly identifies a sub-category of automotive application in the data sheet for its standard products (such as infotainment or lighting), such identification means that Bourns has reviewed its standard product and has determined that if such Bourns® standard product is considered for potential use in automotive applications, it should only be used in such sub-category of automotive applications. Any reference to Bourns® standard product in the data sheet as compliant with the AEC-Q standard or "automotive grade" does not by itself mean that Bourns has approved such product for use in an automotive application.

Bourns® standard products are not tested to comply with United States Federal Aviation Administration standards generally or any other generally equivalent governmental organization standard applicable to products designed or manufactured for use in aircraft or space applications. Bourns expressly identifies Bourns® standard products that are suitable for use in aircraft or space applications on such products' data sheets in the section entitled "Applications." Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any other Bourns® standard product in an aircraft or space application might not be safe and thus is not recommended, authorized or intended and is at the user's sole risk.

The use and level of testing applicable to Bourns® custom products shall be negotiated on a case-by-case basis by Bourns and the user for which such Bourns® custom products are specially designed. Absent a written agreement between Bourns and the user regarding the use and level of such testing, the above provisions applicable to Bourns® standard products shall also apply to such Bourns® custom products.

Users shall not sell, transfer, export or re-export any Bourns® products or technology for use in activities which involve the design, development, production, use or stockpiling of nuclear, chemical or biological weapons or missiles, nor shall they use Bourns® products or technology in any facility which engages in activities relating to such devices. The foregoing restrictions apply to all uses and applications that violate national or international prohibitions, including embargos or international regulations. Further, Bourns® products and Bourns technology and technical data may not under any circumstance be exported or re-exported to countries subject to international sanctions or embargoes. Bourns® products may not, without prior authorization from Bourns and/or the U.S. Government, be resold, transferred, or re-exported to any party not eligible to receive U.S. commodities, software, and technical data.

To the maximum extent permitted by applicable law, Bourns disclaims (i) any and all liability for special, punitive, consequential, incidental or indirect damages or lost revenues or lost profits, and (ii) any and all implied warranties, including implied warranties of fitness for particular purpose, non-infringement and merchantability.
