

3M™ 1420EZ-Writer Station

The 3M™ 1420EZ-Writer Station is designed to save time, field labor costs and complexity when writing data to 3M iD Ball, Near-Surface or Disk Markers.

The 1420 EZ-Stand can hold 10 Ball, Near-Surface or Disk Markers at a time. Using the 1420EZ-Writer – a special 1420E locator with special software – and a PC, all markers can be programmed at once. Now the process of writing to 3M iD markers is simplified by:

- Reducing the time spent in writing to markers is reduced from an average of 30 seconds per marker to an average of 12 seconds per marker
- Removes the requirement for specialized training to write 3M iD markers and simplifies the process for new users
- Offers a low-cost alternative to field writing of 3M iD markers

3M™ 1420EZ-Writer Station

3M™ 1420EZ-Writer Stand

The 3M™ 1420EZ-Writer Station can be used to program up to 10 3M iD Ball or Near-Surface Markers at a time
