

SNM022A-12

Body Diameter: 22.00mm , Length: 26mm

12 circuits * 2A version

The SNM022A-12, with 12 wires and compact 22.00mm body diameter, which we call our “medium”, uses SenRing's fiber brush technology which offers several advantages over conventional slip ring contacts including multiple points of contact per brush bundle, low contact force per fiber and low contact wear rates.
