

## KM-14-14-SS

Ruland KM-14-14-SS, Key Stock, Width 14mm, Height 14mm, Length 12" (304.8mm), 18-8 Stainless Steel

### Description

Ruland KM-14-14-SS is a straight style key stock with 14mm height x 14mm width. The oversized tolerance provides a tight fit with the key slot on the shaft for zero-backlash power transmission. It is designed to be used with Ruland shaft collars and rigid couplings that have a 45mm or 50mm bore size to allow for higher torque capabilities in the application and prevent slippage on the shaft. Ruland key stock is supplied in 12" (304.8 mm) lengths allowing the user to cut to size for their application. KM-14-14-SS is made from 18-8 stainless steel for high corrosion resistance. It is US manufactured and RoHS compliant.
