FEATURES & APPLICATIONS

The TBK Series 1/4" plugs feature a durable black shell housing designed to allow for smoother plugging and unplugging. Gold-plated plug contacts and tin-plated wire terminals are standard, as well as solder termination and a threaded housing assembly. They include a plastic pressure chuck which tightens onto the cable to provide extended strain relief.

TBK Series 1/4" connectors can be used with modern high density jackfields, so they can be used in a variety of applications including use with various instruments and patch bays for home or professional studios.
