#### Description

120 Series and 121 Series Thermistors are shock resistant, rugged, glass-encapsulated units that are often suited for immersion in fluid and convenient for mounting in air sensor assemblies. They are available in two configurations: standard and mini.

#### **Features**

#### **Potential Applications**

## Features

- Hermetically sealed
- High reliability
  Maximum temperature to 260 ° C [500 °F]
- Weldable, solderable dumet leads

# Potential Applications

- Military
- Aerospace
- Oceanography
