Part#: 7174E

Cutters - .09" x .08" Transverse End  
For horizontal cutting in tight places

The 7174E Lazer Line<sup>®</sup> miniature tapered transverse laser flush cutter with a cutting capacity of .001" - .020" soft wire is made of carbon tool steel with induction hardened cutting blades to RHC 63-65. The overall length is 6". The CNC machining allows the joint surfaces to be perfect to allow for long life. This 6" tool has a 40° angled tip with a set-screw to prevent over-travel while prolonging the life of the tool. The Anti-Static grips are soft cushioned foam and have a surface resistivity of 10<sup>10</sup> ohms/sq. The dual leaf springs provide smooth action.
