Vertical Breadboard–Friendly 3.5mm Mono Headphone Jack

PRODUCT ID: 4031

DESCRIPTION

Pipe audio in or out of your project with this very handy breadboard–friendly audio jack. It's a mono jack with a disconnect pin so you'll get a ground sleeve pin, a left tip pin and a pin that will be disconnected when a jack is inserted. You can use any 3.5mm audio cable with this jack. The pins are on 0.1" spacing so it plugs very solidly (*and vertically!*) into a breadboard, perma–proto or perf–board. Works best if soldered into a perf–board but does work in a solder–less one

Each order comes with one headphone jack. Breadboard and audio cable not include

TECHNICAL DETAILS

- Dimensions: 18 x 13.5 x 9mm

Product Weight: 1.0g / 0.0oz
