# 8330D

# **Silver Conductive Epoxy Adhesive**

8330D is an electrically conductive, silver-filled 2-part epoxy adhesive. It is smooth, non-sagging, thixotropic, and bonds well to a wide variety of substrates.

This product allows for quick, cold-soldering repairs. It can also be used as a solder replacement for bonding heat-sensitive electronic components, or for making conductive connections where soldering is not an option, such as when bonding to glass, soft metals, or plastics.

8330D is highly filled to maximize electrical conductivity. For a more economical version, use 8331D. For a longer working life, use 8330S.

### **Features and Benefits**

- Creates strong permanent electrical connections
- · Cures at room temperature
- SVHC free
- Excellent adhesion to many substrates
- Room temperature storage
- · Long shelf life

## **Application Instructions**

Read the product SDS and Application Guide for more detailed instructions before using this product (downloadable at www.mgchemicals.com).

### **Recommended Preparation**

Clean the substrate with Isopropyl Alcohol, MG #824, so the surface is free of oils, dust, and other residues.

## **Syringe**

- **1.** Twist and remove the cap from the syringe. Do not discard cap.
- **2.** Measure 1 part by volume of A.
- 3. Measure 1 part by volume of B.
- **4.** Dispense material on a mixing surface or container, and thoroughly mix parts A and B together.
- 5. To stop the flow, pull back on the plunger.
- **6.** Clean nozzle to prevent contamination and material buildup.
- 7. Replace the cap on the syringe.

#### Can or Jar

- **1.** Stir each part individually to re-incorporate material that may have separated.
- 2. Measure 1.1 part by weight of A.
- 3. Measure 1 part by weight of B.
- **4.** Thoroughly mix parts A and B together.
- 5. Apply adhesive to the application area.

### **Cure Instructions**

Allow to cure at room temperature for 6 hours, or cure the adhesive in an oven at one of these time/temperature options:

- 10 min @ 65 °C
- 5 min @ 80 °C

## **Storage and Handling**

Store between 16 and 27 °C in a dry area, away from sunlight (see SDS). To maximize shelf life, recap product firmly when not in use.
