

Panic Button- 2 Button, Stainless Steel cover with reset key
Part Number : G3PB004
Product Data Sheet

PICTURE

DIMENSIONS

Drawings not to scale
 All dimensions in mm nominal

DETAILS

Protection against outside attack. The tactile tamper switch will trigger if the front cover is removed.

Connect the tamper switch circuit to the TMP terminals. Once the lid is removed the circuit will be broken.

Ensure all cables are secure and cannot short out to other connections or components.

Note: When refitting the cover you should hear a slight click this will indicate that the tamper switch has operated correctly.
