INDUCTORS

⊗TDK

Inductors for power circuits Wound ferrite VLS-CX-1 series

VLS3010CX-1 type

FEATURES

O Magnetic shield type wound inductor for power circuits using a ferrite magnetic material.

 \bigcirc High magnetic shield construction and compatible with high-density mounting.

O Larger current and lower Rdc were achieved by optimizing the ferrite core figure.

 \bigcirc Operating temperature range: -40 to +105°C (including self-temperature rise)

APPLICATION

Smart phones, tablet terminals, HDDs, SSDs, DVCs, DSCs, mobile display panels, portable game devices, compact power supply modules, other

* Rated current: smaller value of either lsat or Itemp.

Isat: When based on the inductance change rate (30% below the initial L value)

Itemp: When based on the temperature increase (temperature increase of 40°C by self heating)

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

The storage period is within 12 months. Be sure to follow the storage conditions (temperature: 5 to 30°C, humidity: 10 to 75% RH or less).				
If the storage period elapses, the soldering of the terminal electroc	les may deteriorate.			
O Do not use or store in locations where there are conditions such as	s gas corrosion (salt, acid, alkali, etc.).			
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperatur does not exceed 150°C. 	e difference between the solder temperature and chip temperature			
 Soldering corrections after mounting should be within the range of If overheated, a short circuit, performance deterioration, or lifespar 	-			
When embedding a printed circuit board where a chip is mounted the overall distortion of the printed circuit board and partial distortion				
 Self heating (temperature increase) occurs when the power is tu design. 	rned ON, so the tolerance should be sufficient for the set thermal
