Cobalt (II) propionate Data Sheet

Catalog sizes	100g , Listed as 100g Cobalt (II) propionate, 100PRO94 500g , Listed as 500g Cobalt (II) propionate, 500PRO94 1kg , Listed as 1kg Cobalt (II) propionate, 1000PRO94
Category	Propionate, Butyrate, and Valerate Salts
Product specification	Reddish-pink crystalline powder <ul style="list-style-type: none">• Product ID : PRO94• Purity : 98%+• CAS : 1560-69-6• Molecular formula : C₆H₁₀CoO₄• MW : 205.07g/mol• Flash point : 54-60C
Product description	Cobalt propionate is a reddish crystalline powder. It is currently being considered a better source of cobalt than cobalt carbonate in animal feeds. Other applications include: <ul style="list-style-type: none">• Paint and varnish dryer additive• Ceramics brightener• cobalt catalysts• cobalt ceramics precursor• synthetic reagent• adhesion promoter
