

CYTK45 TrueTouch® Evaluation Kit

Last Updated: Jun 09, 2014

Are you ready for an excellent touchscreen user experience? Gen4X is a perfect choice for smartphone, tablet, e-reader, and wearable applications. Get hands-on today with the CYTK45 TrueTouch® Evaluation Kit (EVK).

Based on the Gen4X family of capacitive Multi-Touch All-Points touchscreen controllers, the CYTK45 EVK showcases:

- Market-leading charger noise and display noise immunity
- Robust water rejection and wet-finger tracking performance
- Reliable operation with thick and thin gloves
- Excellent 10-finger accuracy, linearity, and refresh rate

The CYTK45 EVK is a powerful platform for demonstrating Gen4X's performance and includes all the hardware and software needed to configure, optimize, and test touchscreen solutions

CYTK45 EVK Contents:

- TrueTouch® evaluation kit with 5.3” touch panel enclosed in plastic casing
- Micro-USB cable
- USB drive with documentation, TrueTouch® Host Emulator, and design files
