Happy Rain Cloud
PCB Blinky Badge Solder Kits

FEATURES

- Self-flashing fast/slow RGB LEDs!
- ON/OFF switch
- Battery included
- Magnets and adhesive pin for "pinning" and making it wearable

APPLICATIONS

- Unbridled Joy
- Learning or teaching soldering skills
- PCB badge collections

DESCRIPTION

This is a bright, colorful, eye-catching, easy, fun blinky board soldering kit. It may be a simple rain cloud blinky board, but it has 3 self-flashing rainbow LEDs that act as the clouds rain drops! It also has an on/off switch and **includes a CR2032 battery**. If that's not enough we also included a super-strong neodymium magnet, and an adhesive pin. We're all about options!

After assembly:

INSTRUCTIONS:

1. Solder Right-angle Switch
   Note: Be careful not to bridge the pads
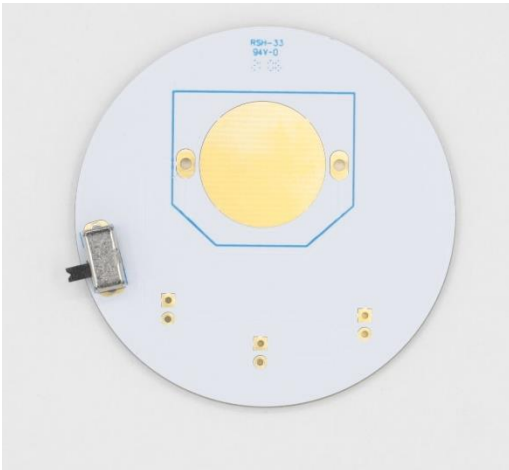

2. Solder LEDs

Front of board with switch:

Front of board with LEDs:

Back of board with switch:

Back of board with LEDs:

3. Solder Battery Holder

4. Put in the battery and turn it on!
