

2.7mm 12MP Wide Angle Lens for M12 High-Quality Camera

Product ID: 5698

Description

This is the 2.7mm Wide Angle Lens, an add-on for the M12 Raspberry Pi High-Quality Camera. It has a wide field of view and a variety of uses, like CCTV applications, or of course, cat photos. Includes a thumbscrew to quickly and easily assemble onto the HQ Camera Board.

Wide-angle lenses are good for getting shots of a big area, wildlife cameras, security cameras, doorbell cams, etc. The video may be distorted around the edges to fit it all into the sensor.

For use with the M12 Raspberry Pi High-Quality Camera only. We also carry a 25mm 5MP Telephoto Lens.
