

# PLIER WRENCH

ADJUSTABLE WRENCH on flat-sided fasteners and  
PUMP PLIER on pipe & other round objects

Offers both  
parallel jaws &  
V-jaw for dual  
functionality

# PLIER WRENCH

Klein's Plier Wrench functions as an adjustable wrench on flat-sided fasteners as well as a pump plier for pipe and other round objects. Its reversible jaw provides smooth parallel jaws characteristic of traditional plier wrenches, with the added versatility of knurled teeth on the reverse side when extra bite is needed. Handle lever provides unique and efficient adjustment.

**HIGH LEVERAGE DESIGN PROVIDES STRONG HOLD ON WORKING PIECE**

**HIGH-LEVER RATIO** provides exceptional grip when holding or bending various workpieces

**HANDLE LEVER ADJUSTMENT** minimizes hand travel and allows adjustment in confined spaces

**MAXIMUM VERSATILITY** with 2" max jaw opening and 20 adjustment positions

**PARALLEL JAWS** provide secure and smooth gripping of nuts, bolts, and miscellaneous workpieces

**KNURLED TEETH** on reversible jaw provides extra "bite" when working with conduit and pipe

**TWO TOOLS IN ONE**

**OFFERS BOTH PARALLEL JAWS AND V-JAW FOR DUAL FUNCTIONALITY**

**REPLACEMENT JAW** available (Cat. No. 53010J)

For Professionals  
**SINCE 1857™**

U.S. Patent 11,273,538

Cat. No.	UPC 0-92644+	Description	Dimensions
D530-10	73165-5	10" Plier Wrench	10" x 2.3" (25.4 x 5.8 cm)
53010J	73056-6	Plier Wrench Replacement Jaw	2" x 2" x 0.55" (5.08 x 5.08 cm x 1.397)
