

### Power Module

**Specifications:**

Terminal Block Wire Range: 30-12 AWG  
Voltage: 250 VAC  
Current: 10 Amp

**Part Numbers:**

IMACP320F - Single Outlet Version

**Dimensions:**

IMACP320F 3.62" x 2.25" x 2.65"

**One Piece Design** - No need to order and assemble separate parts, easy installation

**Finger Safe Connections** - Allows for increased safety during maintenance

**DIN Rail Mountable Design** - No need to drill and tap holes to mount

**Interface Module Design** - Aesthetically pleasing, looks similar to other interface module products

**Labeling Option** - Allows the unit to be identified with no added stickers or markers

**Clear Marking** - Terminals are clearly and permanently marked to prevent wiring errors

**Mounts In Equipment Cabinets** - Ideal for mounting in equipment cabinets where AC power is required, i.e., laptop computers, test equipment, analyzers, electrical tools, etc.
