

Compact Automotive Connector with 0.64mm Size Terminal CONNECTOR

MX34 Series

MB-0360-3

Nov.2021

RoHS Compliant

The MX34 series is a non-waterproof connector with a 0.64 mm size terminal that meets various requirements for automotive applications, and has been adopted for many automotive ECU applications. Since its development, a lineup for MX34 Series has been enhanced with a wide variety of variations.

Applicable Market

General purpose automotive electrical control units (ECU), battery system components for electric vehicles (EV), and Battery Management System applications (BMS)

Features

- Non-waterproof connector with 0.64mm size terminals
- Durable socket terminal that uses a 2-layer spring structure for contact area
- Retainer that detects incomplete insertion of terminals during harness work
- Bridge structure on the lock spring supports external load
- Variations for pin side is available for inline connection, and SMT or DIP mounting type for vertical and horizontal connection to board
- USCAR2 tested

General Specifications

Number of Contacts	3~40 position (please refer to next page for details)	Rated Current	3A
Contact Resistance	5mΩ max. (initial)	Insulation Resistance	100MΩ min.
	10mΩ max. (posttest)	Mating Cycles	50 times
Dielectric Withstanding Voltage	AC 1000V r.m.s for 1 minute	Operating Temperature	-40°C ~+85°C

Ordering Information

MX34 0 03 S F *(~)

Series

Modification Code* :
Please refer to Page 5 onwards
for further details

Plating Specification F: Sn plating

Connector Type
0: Standard
E: 8 position in different array
Q: Reflow DIP Type
R: SMT Type

Connection Type
Cable connection
S: Socket side, **P**: Pin side
Board connection (for pin side only)
Angle **N**: DIP, **H**: SMT
Straight **U**: Flow DIP, **T**: Reflow DIP, **V**: SMT

Number of Contacts:
03 ~ 40 positions

Note 1) Please use MX84 series cables, for 7, 24, and 28 cable connection including the socket side. (For MX84 series, please refer to reference number MB-0330-*.)

Note 2) Basically, for the mating combination of socket side and pin side the insulators should be of the same or similar color.

However, for MX34E08~ socket side is light blue and the pin side is black. In addition, the contact arrangement of the mating part of the MX34E08~ is different from that of the MX34008~. (See the figure below)

<MX34008SF4>
(Standard type)

<MX34E08SF1>

Note 3) This product is different key mating type.

Notice:

1. The values specified in this brochure are only for reference. The products and their specifications are subject to change without notice. Contact our sales staff for further information before considering or ordering any of our products. For purchase, a product specification must be agreed upon.

2. Users are requested to provide protection circuits and redundancy circuits to ensure safety of the equipment, and sufficiently review the suitability of JAE's products to the equipment.

3. The products presented in this brochure are designed for the uses recommended below. We strongly suggest you contact our sales staff when considering use of any of the products in any other way than the recommended applications or for a specific use that requires an extremely high reliability.

(1) Applications that require consultation:

(i) Please contact us if you are considering use involving a quality assurance program that you specify or that is peculiar to the industry, such as:

Automotive electrical components, train control, telecommunications devices (mainline), traffic light control, electric power, combustion control, fire prevention or security systems, disaster prevention equipment, etc.

(ii) We may separately give you our support with a quality assurance program that you specify, when you think of a use such as :

Aviation or space equipment, submarine repeaters, nuclear power control systems, medical equipment for life support, etc.

(2) Recommended applications include:

Computers, office appliances, telecommunications devices (terminals, mobile units), measuring equipment, audiovisual equipment, home electric appliances, factory automation equipment, etc.

Japan Aviation Electronics Industry, Limited

* The specifications in this brochure are subject to change without notice. Please contact JAE for information.
