

The *Energizer*™ TAC 300 is a high performing and durable light in a very compact and lightweight body. The smaller size makes this the perfect light to carry with you and have, no matter what life throws at you. Its durable aircraft-grade aluminum construction makes this light a very reliable option for emergency situations. The removable clip that can be used in both orientations brings the versatility you need to clip it wherever you need while working on your DIY project. The high performance and brightness provides the perfect light no matter what the task is.

Provides
300
Lumens of
Light

Provides

of 2 Hours

Sustains 1
Meter
Drop Test

Illuminates
objects up
to 100m
away

Water Resistant –
works after
splashing water
on all sides

DESIGN BENEFITS

- ✓ Rear push button to easily change modes while holding the light
- ✓ Compact size and lightweight
- ✓ Removable clip that can be used in both orientations
- ✓ Durable aircraft grade aluminum
- ✓ Shatterproof lens

LIGHT AND POWER SOURCE

- ✓ Features LED Technology
- ✓ Operates on 1 CR123 Battery

ELECTRICAL CHARACTERISTICS

Electrical Characteristics Nominal Power:
Power consumption: 2.1W
Batteries: *Energizer CR123 3.0V dc*
LED Specifications: LED 3.0V dc / 700 mA

CERTIFICATES AND COMPLIANCE

EMC, EN62471, FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Tested according to ANSI/NEMA FL1 Standards.

Results based on: Energizer CR123

PERFORMANCE BENEFITS

- ✓ Up to 15X brighter than standard LED technology
- ✓ Emergency Strobe

SPECIFICATIONS

Weight Excluding Batteries:

65 Grams / 2.29 Ounces

Dimensions:

100mm x 27mm x 27mm /
3.94" x 1.06" x 1.06"

NUMBER OF OPERATING MODES: 3

Mode	Lumens (lm)	Runtime (h)	Beam Distance (m)
High	300	2	100
Low	50	5	---
Strobe	---	---	---
