USB3.1 Transfer Data with 5Gbps

X5 includes 2 USB-A ports to extend the usability for USB-C devices, worry-free connecting to a USB driver, keyboard, mouse and more. X5 supports USB 3.1, to transfer data ten times faster than USB 2.0. Transfer a feature-length movie or presentation in seconds.

Outstanding Portable Design

X5 is very portable considering its capacity. The front side of X5 is 25% smaller than iPhone 11. It is an understated design for business travelers. While black X5 is designed in a polished black and ornament in gold, white X5 is noble designed with perfect combination of silver and white.

Power All Your Devices Properly

X5 has 3 USB ports to charge up to 3 devices at the same time. 45W Power Delivery provides full charging speed for your Switch, tablet, smartphone and even MacBook. 2 USB-A ports deliver up to 18W output for QC 3.0 compatible devices while a low-power mode can power your wearable devices, including Air Pod, Apple Watch and more.
