

Protecting what's important

A better alternative to traditional liquid epoxy: 3M™ Scotchkote™ Liquid Epoxy Coating 323+. Because 3M is committed to environmental stewardship, we removed nonylphenol from our leading liquid epoxy formulation and enhanced its adhesion, flexibility and impact resistance. It's the safe choice for pipeline field and factory applications and pipe rehabilitation.

- VOC free
- Elimination of nonylphenol
- Meets global industry standards
- Improved sag resistance and high build rate
- Multiple application and packaging options
- Advanced adhesion, flexibility, and impact resistance

Use for:

- Field joints
- Rehabilitation of pipeline coatings
- Bends, Valves, other Odd Shapes
- Field and factory repairs

Substitute for 3M Scotchkote™ Liquid Epoxy Coating 323, 323i and 327.

3M and Scotchkote are trademarks of 3M Company.

Important Notice

Before using this product, you must evaluate it and determine if it is suitable for your intended application. You assume all risks and liability associated with such use.

Warranty; Limited Remedy; Limited Liability.

3M's product warranty is stated in its Product Literature available upon request. All items made by others and specified by such brand which are included in any of 3M's products or enclosed in a 3M package are warranted only to the extent specifically stated by the manufacturer of such item(s). **3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** If this product is defective within the warranty period stated above, your exclusive remedy shall be, at 3M's option, to replace or repair the 3M product or refund the purchase price of the 3M product. Except where prohibited by law, 3M will not be liable for any direct, indirect, special, incidental or consequential loss or damage arising from this 3M product, regardless of the legal theory asserted.
