REAL ROO

# EZURiO

# Embedded *Bluetooth*<sup>®</sup> HCI Module

# Part No: TRBLU24 - 00100

The Ezurio Embedded *Bluetooth* Module is specifically designed for applications that demand a robust and reliable *Bluetooth* connection. This product has been designed with solder connections that allow the module to be mounted directly into your own designs and potted or enclosed within metal housing, while exposing a high performance multilayer ceramic antenna.

#### **Key Features**

- Integrated antenna with up to 300 metre range
- Class 1 with +6dBm transmit power (maximum)
- Current consumption less than 30 mA
- Version 2.0+ EDR *Bluetooth*
- Data transfer rate up to 3Mbps
- -40°C to +85°C operating range
- Optimised for Windows CE
- USB or optional UART (H4, H5, BCSP)
- Piconet and Scatternet supported
- Adaptive frequency hopping
- Support Wi-Fi coexistence
- Bluetooth approved
- Designed for rugged applications and potting
- Lead free RoHS compliant
- 2 year warranty

The HCI interface has been optimised to work with the Microsoft Windows CE embedded protocol stack and also supports other HCI compliant *Bluetooth* stacks including Microsoft Windows XP. The interface allows the module to access to the full range of features available from the *Bluetooth* version 2.0 specification from the latest CSR BlueCore BC4 chipset.

#### **Key Benefits**

- Fastest time to market
- Excellent range
- Rugged design
- Low power
- Low cost of ownership
- Flat mounting solder down board
- Pottable without detriment to performance

# Embedded Bluetooth Module - HCI

#### **Features**

Version 2.0+EDR Bluetooth         Adaptive Frequency Hopping         Supports Wi-Fi co-existence         Bluetooth qualified         Optimised for Microsoft Windows CE         Integrated antenna with up to 300m range         Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable         O Yarawarentu	Features	
Supports Wi-Fi co-existence         Bluetooth qualified         Optimised for Microsoft Windows CE         Integrated antenna with up to 300m range         Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Version 2.0+EDR Bluetooth	
Bluetooth qualified         Optimised for Microsoft Windows CE         Integrated antenna with up to 300m range         Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Adaptive Frequency Hopping	
Optimised for Microsoft Windows CE         Integrated antenna with up to 300m range         Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Supports Wi-Fi co-existence	
Integrated antenna with up to 300m range         Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Bluetooth qualified	
Surface mounted design         Low current consumption         Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Optimised for Microsoft Windows CE	
Low current consumption Data rates up to 3Mbps (raw data rate) Industrial Temperature range Piconet, Scatternet and audio supported Field upgradeable	Integrated antenna with up to 300m range	
Data rates up to 3Mbps (raw data rate)         Industrial Temperature range         Piconet, Scatternet and audio supported         Field upgradeable	Surface mounted design	Con Contraction
Industrial Temperature range Piconet, Scatternet and audio supported Field upgradeable	Low current consumption	- Sic A
Piconet, Scatternet and audio supported Field upgradeable	Data rates up to 3Mbps (raw data rate)	
Field upgradeable	Industrial Temperature range	
	Piconet, Scatternet and audio supported	
	Field upgradeable	
2 Year warranty	2 Year warranty	

### Key benefits

Fastest time to market	Embedded system design	Supports encrypted data	Low power consumption
Lowest cost of ownership	Optimised for Microsoft	Industrial design for surface	Extensive technical support
	Windows CE	mount applications	

## Overview of the technical specification

Feature	Implementation
Bluetooth	Class 1
Frequency	2.400 – 2.485 GHz
Max Transmit Power	+ 6dBm
Low Power	Hold, Sniff, Park
Receive Sensitivity	Better than -84dB
Range	300m (free space)
Interface	HCI over USB or optional UART
Lead Free	RoHS compliant

Feature	Implementation
Physical Size	25 X 35 X 10mm, 8g
Bluetooth Qualified	Bluetooth 2.0+EDR
Current Consumption	Less than 36mA
Temperature Range	-40°C to +85°
Audio	SCO and eSCO supported
Piconet and Scatternet	Supported
Field Upgrades	Supported
