

Colour Coded GPIO Headers

Brighten up your Raspberry Pi Zero with the colour coded GPIO header! This 40 pin 2x20 male header is designed to be used with the Raspberry Pi Zero and makes it easier for you to find the right pins.

- Red = 5V
- Yellow = 3V3
- Black = GND
- Blue = DNC (Reversed I2C)
- Green = GPIO pins

Note: Raspberry Pi Zero not included. You can pick one up [here](#).
