# NCVT-6 NON-CONTACT VOLTAGE TESTER WITH LASER DISTANCE METER

The Klein Tools NCVT-6 is a non-contact voltage tester (NCVT) with an integrated laser distance meter. It can detect voltage over the full-range from 12-1000VAC and can measure distances from 2" (51 mm) up to 66' (20m). The laser distance meter functions independently from the NCVT with a simple-to-use intuitive interface. Easy single-button changes between voltage detection and laser distance measurements.

## Provides non-contact determination of AC voltage

in cables, cords, circuit breakers, switches, outlets and wires, as well as AC voltage in security, entertainment, communications, environmental control, and irrigation systems

**Full-Range Voltage Detection**  
12-1000V AC

## Measures length and distance

with single or continuous measurements. Easily toggle between different units of measurement: meters, inches with decimals or fractions, and feet with decimals or fractions.

**Measures up to 66' (20m)**  
with an accuracy of

± 1/16" (± 1.6 mm) for ≤ 32.8' (10 m)  
± 1/8" (± 3.2 mm) for > 32.8' (10 m)

**Multiple Reference Points**  
for distance measurement

**Pocket Clip**  
for easy carrying and storage

**NCV Power On/Off Button**

**Change Reference Points and Measurement Units**

**Screw-Thread Battery Cap**

**Laser Distance Meter Control Button**

**2x AAA INCLUDED**

**Non-Contact Voltage Sensing Tip**

**High visibility reverse contrast display** for better viewing in low light conditions

**NCV Indicator** delivers simultaneous visual and audible indicators when AC voltage is detected

**Laser Distance Meter** can also be used as a laser pointer
