

Description

- Black anodized aluminum LSS double wide bracket
- Designed for Lynxmotion Servo Erector Set V2 Building System
- Useful for making your own robotic creations
- Openings for routing cables and cable clips

The Lynxmotion SES Aluminum Double Wide Bracket was designed specifically for Lynxmotion Smart Servo motors and can be mounted in two locations on sides of the LSS motor. This differs from the single-wide bracket in that there is a central mounting location which has an SES V2b mounting pattern to allow cables to be passed through. The bracket is anodized black it adds additional reinforcement compared to the single-wide bracket, making use of 8x mounting points.

What's Included

- 1x Aluminum Double Wide Bracket
- Mounting hardware
