

NRSE

Epoxy sealed radial lead NTC thermistor

Product features

- Epoxy sealed radial NTC thermistor
- Temperature sensing, quick response time
- 1.4 millimeter size
- Wide resistance range 1 kΩ to 470 kΩ
- Non-linear change in resistance vs temperature

Packaging information

- Bulk: 500 parts per poly bag

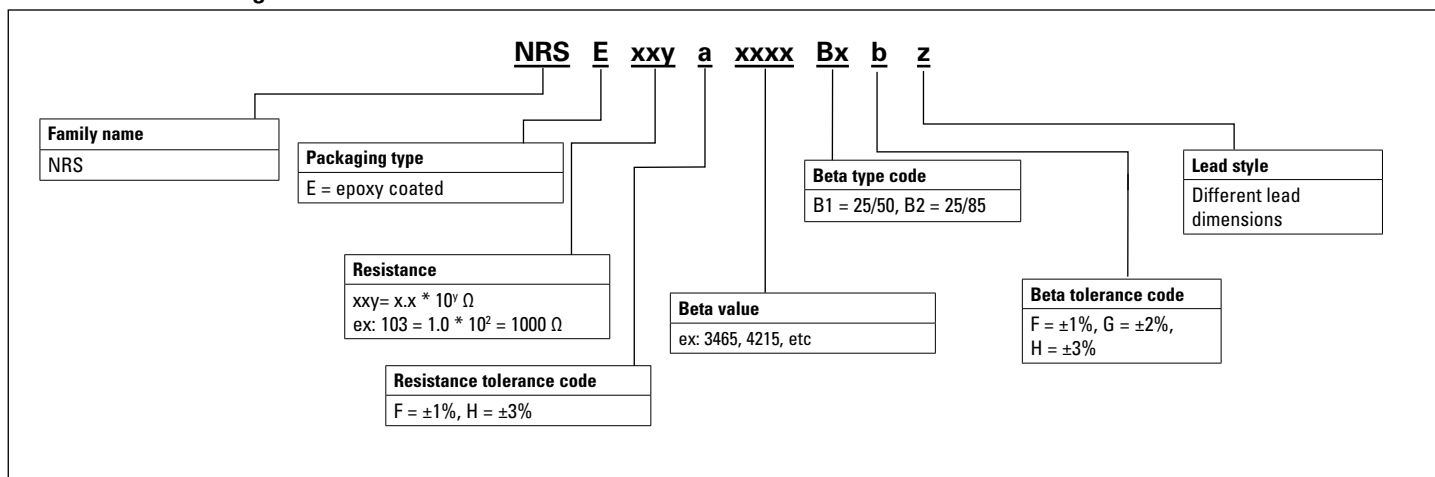

Applications

- Industrial Process Control
- Commercial appliances
- Battery, supercapacitor and energy storage systems
- Uninterruptible power supplies
- Consumer appliances
- Medical devices
- Heating, ventilation and air conditioning, Refrigeration (HVACR)
- Food service equipment
- IoT
- White goods/household appliances
- Computer and peripheral products

Environmental compliance and general specifications

Table 1. Part numbering

See electrical specification table for option details

Mechanical parameters- mm

- 1. Enameled CCS leads with terminals tinned
- 2. Epoxy head

Manual solder

+360 °C (2.5 seconds maximum by soldering iron, distance between soldering position and coating 10 mm minimum)

Life Support Policy: Eaton does not authorize the use of any of its products for use in life support devices or systems without the express written approval of an officer of the Company. Life support systems are devices which support or sustain life, and whose failure to perform, when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.

Eaton reserves the right, without notice, to change design or construction of any products and to discontinue or limit distribution of any products. Eaton also reserves the right to change or update, without notice, any technical information contained in this bulletin.
