Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

High-current terminal block, Blocked, nom. voltage: 1000 V, nominal current: 309 A, number of connections: 6, number of positions: 3, connection method: PowerTurn connection, 1 level, cross section: 95 mm² - 185 mm², mounting type: direct screw connection, color: gray

Your advantages

- Quick and easy connection is now also possible for large conductors with the high-current terminal block
- The compact design enables wiring in a confined space
- The Push-in connection terminal blocks are characterized by the system features of the CLIPLINE complete system and by easy and tool-free wiring of conductors with ferrules or solid conductors
- In addition to using the existing test connection, pick-off terminal blocks can be connected, each of which can also accommodate two test cables
