ATEVK-MXT2952TD-A

Part Number: ATEVK-MXT2952TD-A

Summary

This kit (ATEVK-MXT2952TD-A) is for the evaluation and development of Microchip maXTouch applications using the ATMXT2952TD Touchscreen Sensor IC.

Product Features

The device can be connected through a flexible printed circuit (FPC) to an Indium Tin Oxide (ITO) glass touchscreen (76149). A set of self-adhesive feet have been supplied with the kit to allow for the touchscreen assembly to be used on the desk/bench. Alternatively, the touchscreen assembly may be mounted to a suitable display for evaluation of on-screen performance.

Package Contents

1x 15.6" Touchscreen Assembly (76149)
1x ATMXT2952TD PCB (02-10928)
6x Self Adhesive Feet
1x USB Cable

System Requirements

All supported Windows versions.
