

698-960 MHz / 1710-2700 MHz / 3400-4200 MHz
 Low PIM Rated DAS V-pol Panel Antenna, 5-8.5 dBi, Wall Mount, 2 x Type N Female Connector

Antennas Technical Data Sheet

PE51FP1013

Features

- Low Passive Intermodulation (PIM) <-153 dBc @ 2x20W
- Vertical Polarization
- Low return loss, stable performance
- Type N Female connector for long lasting consistent results
- Covers 5G, WiFi and LTE frequency bands including extended CBRS

Applications

- Indoor distribution of 5G, LTE, GSM/CDMA
- In-building public or private networks
- LPWAN, LoRA, LTE-M, NB-IoT, IoT, M2M applications
- MIMO DAS (Distributed Antenna Systems)
- Wall Mounts

Description

The PE51FP1013 from Pasternack is a high performance, low PIM rated, wall mount panel antenna designed for in-building Distributed Antenna System (DAS) Networks. The PE51FP1013 operates from 698 to 4200 MHz which is ideal for 5G, LTE, CDMA, LPWAN/IoT/M2M applications including LoRA, LTE-M, and NB-IOT. The Multi-Band design of the Pasternack PE51FP1013 antenna eliminates the need to purchase different antennas for each frequency. The same antenna can be used for a wide array of in-building wireless applications where wide coverage is desired. Pasternack's PE51FP1013 can be used to distribute Cellular and WiFi signals throughout a building or area.

The directional 55 to 80 degree antenna with vertical polarization PE51FP1013 from Pasternack has Type N connectors and 5-8.5 dBi of gain. The key to providing the best performance in telecommunications is to ensure the components used are low PIM rated. This helps meet the increasing demand for higher data rates and the ability to provide streaming video for mobile devices. With a low PIM rating of <-150 dBc, the 698-4200 MHz PE51FP1013 helps meets the most demanding PIM requirements for 5G and LTE/4G bands.

The Type N connectorized PE51FP1013 antenna from Pasternack excels in large open areas such as indoor courtyards, indoor sporting venues, convention centers and shopping malls. The mounting bracket and hardware are included for easy installation. Our Pasternack ISO 9001:2008 registered facilities in Irvine, CA ships all Type N RF, microwave and millimeter wave waveguide components from stock the same day you purchase them. Pasternack offers the broadest and deepest in-stock inventory and is where to buy 5G antennas. Our expert technical support and friendly, knowledgeable customer service personnel are available to assist you with your particular needs for wall mount panel 5G cellular antennas.

Configuration
