

Battery

Battery for Terasic Spider

Product Introduction

Terasic 6 volt Battery is designed to perfectly fit the [Terasic Spider](#) . It slides easily into the [Terasic Spider](#) 's bottom tray; this keeps the battery out of the way and allows the [Terasic Spider](#) to move freely and without obstruction. Under normal usage, the battery charge will last approx 30 minutes per charge (Actual battery time depends on the usage).

Product Features

- Rechargeable battery
- Under constant operation, the battery charge will last approximately 30 minutes
