

10ft CAT 6A 10 Gbps UTP 28 AWG Ultra Slim Ethernet Cable, Black (5-Pack) (E09-010B-SL5)

Product Overview

Micro Connectors CAT 6A Ultra Slim Patch Cable is a high performance, compact, low-profile ethernet cable with a slim diameter designed to fit in tight spaces. Up to 60% thinner than standard CAT 6A cable, this flexible cable is space-saving and improves airflow in data centers and telecommunication rooms.

Features:

Ultra slim design and up to 60% thinner than standard cable

- Low-profile and compact to cut down clutter in tight network environment
- High performance CAT 6A 10-Gigabit ethernet standard and backwards compatible with CAT 6
- Improves airflow and cable management by reducing clutter in tight spaces
- Gold-plated 50-micron contacts ensure clear transmission by eliminating signal loss
- 28 AWG wire and made with 100% bare copper
- Compliant with major EIA/TIA, UL, ETL, and RoHS standards
- Available Lengths: 100, 50, 25, 14, 7, 3, 1 ft

without us, you are just not connected!
