## **3M** Hot Melt Adhesive 3762LM • 3762

Product Description	<ul> <li>3M<sup>™</sup> Hot Melt Adhesives are heat applied, 100% solids adhesives. They are fast setting thermoplastic adhesives with good "hot tack" and low to medium viscosity.</li> <li>3M<sup>™</sup> Hot Melt Adhesives bond to a wide variety of substrates such as corrugated, beadboard, repacking chipboard, recouperage, wood and many other lightweight materials.</li> </ul>			
	3M <sup>™</sup> Hot Melt 3762	Low viscosity adhesive with	"quick grab" properties.	
	Features	• 100% solids, no VOCs		
• Easy to use				
	• Fast-setting adhesive obt	ains strength in seconds		
	<ul> <li>Low Melt (LM) adhesives are designed for low temperature application and heat sensitive substrates</li> </ul>			
	<ul> <li>"Quick grab" for instant adhesion that cools to a tack free solid</li> </ul>			
	<ul> <li>Querk grab for instant adhesion that cools to a tack free solid</li> <li>Ideal for packaging and woodworking applications.</li> </ul>			
	- Ideal for puckaging and	woodworking upproutions.		
Typical Physical Properties	-	al information and data should b ould not be used for specification	-	
	-		purposes.

## **3M<sup>TM</sup>** Hot Melt Adhesive

3762LM • 3762

Directions for<br/>Use (continued)Open Time is the maximum amount of time between dispensing adhesive and joining surfaces.Reported open time are based on 1/8" extruded beads and will vary based on bead size, dispense<br/>temperature and ambient temperature.

Extruded bead sizes can be customized using 3MTM applicator tips.

**3.** Coverage: 3M<sup>TM</sup> Hot Melt Adhesives yield approximately 430 linear feet per pound of adhesive when extruded as a 1/8" diameter semi-circular bead.

**4. Set Time:** After the bond is made,  $3M^{TM}$  Hot Melt Adhesives immediately build strength and no clamping is necessary. Set will occur faster on cold or metallic substrates.

Note: The following technical information and data should be considered representative	
or typical only and should not be used for specification purposes	

## Typical Application Properties

	<b>3M<sup>TM</sup> Hot Melt Adhesive</b>	
	3762LM	3762
Application Temperature <sup>1</sup>	250-270°F/ 121-132°C	350-385°F/ 177-196°C
Viscosity (cps) <sup>2</sup>	4000 @ 250°F	1870 @ 375°F
Open Time (seconds) <sup>3</sup>	25	35
<b>Delivery Time</b> (seconds) <sup>4</sup>	45	30
Available sizes/forms	5/8"x8"Q 5/8"x2" TC 1"x3" PG 1/2"x12"AE 1/8" Bulk	5/8"x8"Q 5/8"x2" TC 1"x3" PG 1/2"x12"AE

(1) Recommended application temperature range. Temperature can be adjusted to regulate desired viscosity, delivery rate and pot life.

Note: The following technical information and data should be considered representative

(2) Brookfield Thermocel Viscometer in Centipoise using a #27 Spindle @ 10 RPM.

(3) For 1/8" semicircular bead, Douglas Fir to Douglas Fir.

(4) Extrusion time for one 1"x3" PG cartridge.

Typical	
Performance	
<b>Properties</b>	

or typical only and should not be used for specification purposes.			
	<b>3M<sup>TM</sup> Hot Melt Adhesive</b>		
	3762LM	3762	
Heat Resistance <sup>1</sup>	130°F/ 54°C	130°F/ 54°C	
Ball & Ring Melt Point <sup>2</sup>	205°F/ 96°C	201°F/ 94°C	
Shear Strength <sup>3</sup>	480 psi	545 psi	
Peel Strength <sup>4</sup>	6 pwi	7 pwi	
UL94 Listing	n/a	V2	
FDA Indirect Food Contact <sup>5</sup>	21 CFR 175.105	21 CFR 175.105	

(1) Highest temperature that the adhesive will support a 2 psi dead load.

(2) ASTM E28-67.

(3) Douglas Fir to Douglas Fir.

(4) Canvas to Douglas Fir.

(5) Permitted for indirect food contact subject to the limitations in applicable CFR section(s).

Storage	Store product below 120°F (49°C).		
Shelf Life	When stored at the recommended conditions, this product has a shelf life of 2 years after 3M ships the product to a customer or distributor.		
Pre cautionary Information	Refer to Product Label and Material Safety Data Sheet for health and safety information before using this product. For additional health and safety information, call 1-800-364-3577 or (651) 737-6501		
Product Use	All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. How ever, many factors beyond 3Ms control can affect the use and performance of a 3M product in a particular application, including the conditions under w hich the product is used and the time and environmental conditions in w hich the product is expected to perform. Since these factors are uniquely within the user's know ledge and control, it is essential that the user evaluate the 3M product to determine w hether it is fit for a particular purpose and suitable for the user's method of application.		
Warranty and Limited Remedy	Unless stated otherwise in 3Ms product literature, packaging inserts or product packaging for individual products, 3Mw arrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. 3MMAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the w arranty period, your exclusive remedy and 3Ms and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.		
Limitation of Liability	Except w here prohibited by law, 3M and seller w ill not be liable for any loss or damage arising from the 3M product, w hether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including w arranty, contract, negligence or strict liability.
