

Star-tek

## Features

### Material & Hardness

AISI 410 Stainless Steel

45 Rockwell Hardness (HRC)

### Handles

Monocomponent ESD handles

### The Joints

#### Box Joint

Ideal-tek precision pliers feature a unique joint design that allows the two parts of the pliers to be mated at an earlier stage of the manufacturing process. The resulting perfect alignment delivers a precision fit that eliminates “slack” or “play” and ensures long life with minimal wear.

The extra rigidity and sturdy construction of Ideal-tek precision pliers supports our longer jaws and greater taper – ideal for precision work.

### Maintenance

In order to preserve your pliers perfectly efficient keep a thin oil film on the tips head.

## Pliers | Available Models

- Snipe Nose
- Flat Nose
- Round Nose
- Round/ Flat Nose
- Round/ Concave Nose
- Snipe/ Flat Nose
