PRO-12M

Clinical Centrifuge for 12 tubes

The VELAB PRO-12M is a robust, compact product line ideal for limited laboratory space. Its digital controls allow for quick adjustments of speed and time at the touch of a button. It also displays the speed and time remaining in real time. The VELAB PRO-12M is amazingly silent, contributing to noise level reduction in laboratory environments.

SPECIFICATIONS

SPEED RANGE

300 - 4000 RPM

MAXIMUM RFC

2460g.

ROTOR CAPACITY

12 x 1.5/2ml/3ml/4ml/5ml/6ml/7ml/10ml/15ml.

TIMER

15 seconds ~ 99 minutes.

WEIGHT

11 Kg.

DIMENSIONS

380 x 320 x 180mm / 14.96" x 12.59" x 7.08"

POWER SUPPLY

110-240V, 50/60 Hz, AC Adapter.

ACCESORIES INCLUDED

12 adapters for 1.5ml/2ml

12 adapters for 2ml/3ml/4ml

12 adapters for 5ml/6ml/7ml

AC/DC adapter

C-13000 fixed angle rotor for 12 tubes 10ml/15ml
