3M™ Professional Safety Eyewear

3M™ Professional Safety Eyewear, worn to help protect eyes against particles and airborne debris, offers quality eye protection and a customized fit. The adjustable, articulating temples adjust to four lengths and three angles. Anti-scratch coating helps ensure that lenses stay clear so you can see what you are working on. The polycarbonate lenses are the strongest, most impact-resistant eyewear lens material available. Polycarbonate lenses are lightweight, impact resistant and provide 99.9% UV protection. 3M™ Professional Safety Eyewear meets the requirements of ANSI Z87.1-2003, CSA Z94.3-2007 and are a great choice in eye protection for both the pro and DIYer.
