

25Ft Serial RS-232 DB25 Extension Male to Female Cable A02-112

Our DB25 Male to Female Cables are commonly used for serial peripheral devices like keyboards, mice, joysticks, printers, scanners, and many other devices. The fully molded connectors with thumbscrews provide you with a quick and easy connection.

DB25 Male to Female cable is wired with a standard straight through pinout.

Add your RS-232 serial peripherals to a switchbox.

Lifetime warranty.
