

AMER72N-Z

Summary

AMER72N-Z AC-DC LED Driver

Aimtec's AMER72N-Z series is a 72W AC/DC LED driver featuring a constant current output mode, targeting LED lighting applications. The driver has an input voltage range from 90 305VAC and has an output voltage of up to 24V at 3A.

Thanks to a high efficiency of 89% and its fanless design, the LED driver can operate safely at an ambient temperature range between -40 and $+70^{\circ}$ C under free air convection.

Low output ripple & noise as well as continuous short circuit protection as well as the driver's IP67 metal housing makes this series great for both indoor and outdoor applications.
